Simply better.

iowachildsupport.gov

simplify your life.

(or at least your paperwork.)

fast.
convenient.
secure.
it's simple.

Iowa's Child Support Recovery Unit has a new, **SECURE** Web site where you can choose to:

- Make child support payments
- Report newly hired or rehired employees
- Report employee terminations

Use your personal or office computer anytime, whenever it's **CONVENIENT** for you.

register once.

Beginning around July 20, 2005, register one time at **iowachildsupport.gov** — it's SIMPLE and EASY and takes only a few minutes. Then just choose as little or as much as you want to do online.

make payments.

Making child support payments online gives you MORE CONTROL, is LESS HASSLE and SAFER:

- No more checks separated from documentation
- Fewer processing steps: input, submit, that's it!
- No more check writing, mailing or copying
- Summary reports at your fingertips (we do the recordkeeping for you)

After registering at **iowachildsupport.gov**, you'll be able to make payments at your convenience, according to your payroll cycle, plus print summary reports that will help you track payment history throughout the year.

iowachildsupport.gov allows you to designate multiple people or your payroll processing firm to handle the various responsibilities associated with child support payment processing.

Not sure you want to make child support payments online, but tired of writing checks? You can choose to send child support payments NOW through electronic funds transfer (EFT). For more information, call (877) 274-2580 and ask to speak with an EFT program coordinator today!

report employee changes.

Use the Web site to report newly hired or rehired employees, or to report employee terminations one of three ways. No more faxing, mailing or calling!
